

Controls LED Strip Lights via the JNIOR

Integrates White and RGB LEDs for Your Auditoriums

The INTEG 3 Channel LED Dimmer expansion module works with the **JNIOR Series 4** to add control of LED strip lights. The module controls up to 3 individual channels of single color LED strip lights or 1 channel of Red, Green, Blue (RGB) LED strip lights.

Dimmable 0—100%

For Color Strips, mix ANY color using the RGB format

JNIOR Model 410

3 Channel LED Dimmer Features

- ◇ Plug and Play Expansion Module
- ◇ Works with the JNIOR Series 4
- ◇ 3 Channels—Single Color LED Strip Lights
- ◇ 1 Channel—RGB LED Strip Lights
- ◇ 5—24 VDC Input Power (30 Amps)
- ◇ Up to 10 Amps per Channel
- ◇ Max 30 Amps Total All Channels
- ◇ Each Channel has PWM Control
- ◇ Negative Power Side Switched
- ◇ Each Channel Dimmable 0—100%
- ◇ Add 1 or 2 LED Dimmer Modules per JNIOR
